Prevalence of diabetes mellitus, especially of type 2, is on the increase. This rise is most marked in developing countries, Malaysia included. The increasing number of people with diabetes is compounded with the added burden of chronic complications of the disease which remain an important cause of morbidity and premature mortality for those affected, and a huge challenge to healthcare providers.

To help address these issues, the National Diabetes Institute (NADI) of Malaysia, organises “Diabetes Asia Conference (DAC)” annually since its inception in 2002 as a Continuing Professional Development (CPD) initiative on diabetes and related diseases. The “Diabetes Complications” Conference & Grand Rounds was first introduced in 2009 to provide specific focus on diabetic complications.

**Objectives of “DIABETES COMPLICATIONS”:**

**Conference & Grand Rounds**
The Continuing Professional Development (CPD) Series as “Diabetes Complications” Conference & Grand Rounds aims to help in the prevention and effective management of diabetic complications especially in relation to diabetic foot, cardiovascular disease, retinopathy and nephropathy. **The emphasis is on recent advances and practical aspects in the prevention and effective management of diabetic complications.**

Participants are expected to be able to:
- appreciate recent advances and practical aspects of diabetes care, especially in relation to prevention, early diagnosis and optimal management of diabetic complications.
- apply knowledge gained during the “Diabetes Complications” Conference & Grand Rounds to further improve care for persons with diabetes in the community.

**Who Should Attend**
Healthcare professionals responsible for managing persons with diabetes including:
- Medical and Surgical Specialists
- General Practitioners
- Medical and Health Officers
- Trainee Lecturers
- Pharmacists
- Nursing Practitioners
- Diabetes Educators
- Dieticians
- Medical Assistants

The “Diabetes Complications” Conference & Grand Rounds will emphasise on **recent advances** and **practical aspects** in the management of diabetic complications.

About the National Diabetes Institute (NADI)

The National Diabetes Institute (NADI) is established to provide a dedicated and comprehensive service for diabetics, to prevent and control diabetes, its complications and associated diseases.

NADI is a non-profit, Non-Governmental Organisation (NGO) managed by a Board of Trustees with our former Prime Minister YABhg. Tun Dr. Mahathir Mohamad as Patron.

The Board of Trustees comprises of Founding and Elected members and representatives from the Malaysian Endocrine and Metabolic Society (MEMS), Malaysian Diabetes Association (PDM) and Ministry of Health (MOH), Malaysia.

The main objectives of NADI are:
- to be a National Diabetes Education Resource Centre for the country
- to establish and run a comprehensive health facility including a National Diabetes Hospital for the management of diabetes and its complications
- to create and maintain a National Diabetes Registry
- to coordinate and conduct research in diabetes and related conditions
- to be the national coordinating centre for diabetes in Malaysia in respect to statistics, education, management, research, policy and planning on diabetes and associated diseases
